

milo

Quick Start Guide

ENGLISH

Quick Start

Step 1: Turn on

Press-and-hold the power button to turn on.

Milo greets you with its pre-assigned name.

The first time, you'll also hear an interactive tutorial.

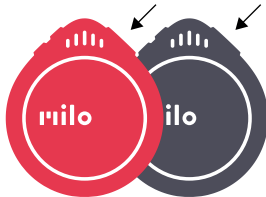

HI <NAME>

Step 2: Connect

Hold Milos near each other.

Press-and-hold the side button on all Milos until you hear "Connected."

CONNECTED

Step 3: Go

You'll notice that sound from connected Milos is quieter when you're close enough to talk in person.

Reference

Volume Up/Down

Click – Small change

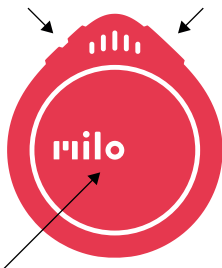

Hold – Fast change

Group

Click – Roll call

Hold – Create/Join group

2x Click – Leave group

Talk

Click – Mic mute/unmute

Hold – Manual push-to-talk

Click – Battery info

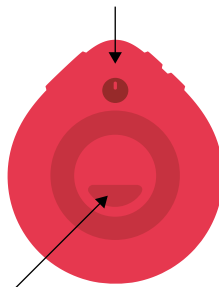

Hold – Power on/off

Factory Reset

Power off.

Press-and-hold Bluetooth and Power buttons at the same time.

Release both buttons when the light ring blinks (after about 5-10 sec).

Customize (Bluetooth)

Click – Record new name

Hold – Pair Bluetooth headset (soon)

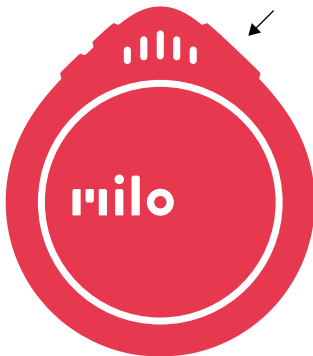

Connect with Others

Create or Join a Group

To group with others, hold Milos near each other, and press-and-hold the side button on each at the same time.

The light ring shows grouping is in progress.

Release the side buttons after you hear "Connected."

Leave a Group

To leave a group, double-click the side button. When asked to confirm, double-click again.

If you're in a group, you need to leave it first to join another.

TO CONFIRM...

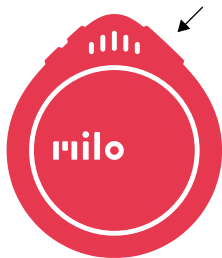

YOU LEFT

Stay in Contact

Group Information

Get info on your group with a click of the side button.

Milo tells you who is in your group and their status.

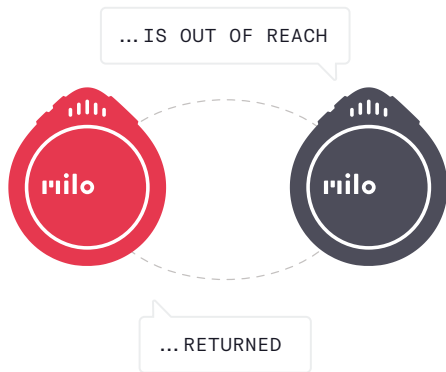

YOU'RE IN A GROUP WITH...

Group Connection Status

Milo keeps the group informed when Milos go out of range.

Milos reconnect automatically when back in range.

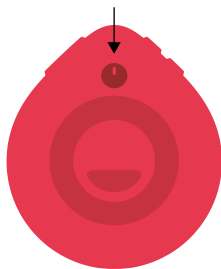

Power & Battery

Battery Life

Click the power button for battery level info.

To power down, hold the power button for 2-3 seconds.

BATTERY'S AT 75%

Charging

Use a USB-C cable to charge from any power adapter.

You can even use a battery pack to charge on-the-go while using Milo.

Milo charges more quickly when turned on.

- Still charging
- Fully charged

Success Tips

Attaching Milo

Milo has a magnet and securely snaps into the included Action Clip, or one of the other Milo clips available for purchase.

To remove Milo from its clip, simply rotate 90°, then pull it off the clip.

Others Can't Hear You?

If your group can't hear you, check if your mic is muted. Remember that Milo is muted after it's turned on.

Using a Headset

When using a headset, avoid putting Milo in your pocket. Milo uses its built-in microphones for noise reduction.

Bluetooth Headset Pairing

Most Bluetooth headsets need to be in pairing mode before you click the Milo Bluetooth button to pair. Refer to the pairing instructions for your headset.

If pairing doesn't succeed, try turning off Bluetooth on your phone while pairing.

Factory Reset

If your Milo behaves unexpectedly, power down, then factory reset (see Reference page for how to).

After a reset, you need to rejoin your group.

Additional Features

The Milo app gives you more features

- Milo software updates for new features
- Guide to using your Milo
- Answers to frequently asked questions
- Choose Milo language
- Choose Milo name
- Set geographic region
- Other customization
